

Appl. No. : 10/661,139
Filed : September 12, 2003

REMARKS

Applicants thank the Examiner for the indication of allowable subject matter. As requested, Claims 6, 8, 10 and 12 have been amended to add chemical structures of claimed compounds. Claims 34-37 have also been amended to added "or salt thereof" after "the compound." The amendments do not constitute addition of new matter.

Furthermore, Claims 13-33, 42 and 43 have been cancelled as being directed to a non-elected subject matter. Applicants reserve the right to file a divisional application on the non-elected subject matter. As a result, Claims 1-3, 5-12 and 35-37 are currently pending.

Rejections Under 35 U.S.C. §112, second paragraph

The Examiner rejected Claims 6, 8, 10 and 12 under 35 U.S.C. §112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter of the invention. The amended Claims 6, 8, 10 and 12 now define claimed compounds by chemical structures. Accordingly, they are deemed properly allowable as they stand alone to define the invention. Applicants respectfully request that the Examiner withdraw the rejection of Claims 6, 8, 10 and 12.
